

## SAY! SAVE THOSE PENNIES FOR THE JUNIOR CHAUTAUQUA

If you can only save up your pennies and get busy and earn a few extra nickels and dimes within the next few days and then buy a season ticket to the Chautauqua you'll have the best time you ever had.

Just think, it will be in a monster tent and will last for five whole days. It will be a regular play-festival for boys and girls with games of all sorts, athletic events for the older boys and girls and a story-telling hour each day for the younger folks.

Then there will be the big grown-ups' Chautauqua you'll have a chance to attend with one of these season tickets. There will be something every day that will cause you to open your eyes up big, don't you forget it! A great band and a host of musical companies and entertainers.

Start right this minute rounding up your nickels and dimes and don't give up till you have a season ticket to the Junior Chautauqua that admits also to the big Chautauqua. A trained play director is coming from New York City to show you the time of your life. You'll be there, won't you?

## THE JUNIOR CHAUTAUQUA FOR BOYS AND GIRLS

AT BARRE BEGINNING AUGUST 2D

## Topics of the Home and Household.

Warm salt water inhaled through the nostrils two or three times a day will cure cold or catarrh.

To clean painted walls do not wash with soap, but dissolve two ounces of borax in two quarts of water and add one teaspoonful of mixture to a pail of warm water. After washing the walls rub with dry cloths until clean.

A towel wet with very cold water and wrung out the neck and chest will cure the worst case of croup in five minutes. It breaks up the congestion.

Add a sliced banana to the white of one egg and beat until stiff. The banana will entirely dissolve and you will have a delicious substitute for whipped cream.

Here is a satisfactory way of washing the blankets before putting them away for the summer: Slice half a cake of washing soap into two quarts of water. Set on the stove and stir until dissolved. When dissolved, add cold water in a large tub. To this soapy water, add four tablespoons of powdered borax. Soak the

blankets in this overnight. Then wash them in this water, rinse them twice in cold water, wring, and hang on the line. This recipe will wash four blankets. Be sure and use only cold water and they will come out as soft and beautiful as new. A teaspoonful of glycerine added to the rinsing water, will improve them. Very heavy blankets may sometimes be cleaned by hanging them on the line, soaping and scouring them, and then turning the hose on them.

Now that tortoise shell has once more come into public favor, it is well to know a way in which to clean and polish it. When tortoise shell loses its lustre from wear the polished surface may be restored to its original condition by carefully rubbing it with powdered rotten stone and oil. The rotten stone should be very carefully sifted through the finest muslin. When all scratches on the surface of the tortoise shell are thus removed, a brilliant polish may be given it by applying gentle friction with a piece of soft leather to which some jeweler's rouge has been applied.

### Salad Dressings.

The dressing is the making of a salad—just as it is of a woman. To begin with, of course, says the Boston Traveler, there must be crisp, fresh greens. Then there must be a delicious dressing.

French dressing is best made in this way: Beat a teaspoonful of salt with six tablespoons of olive oil until thick. Then slowly beat in two tablespoons of vinegar, add red pepper and pour over the salad.

Sardine dressing for crisp lettuce is delicious. Here is the recipe: Skin and bone two sardines and add the powdered yolks of two hard-boiled eggs. Rub to a smooth paste. Add a teaspoon of sugar, one of dry mustard; half a teaspoonful of olive oil, a tablespoon of tarragon vinegar, half a teaspoon of cream and salt and pepper. Add a little lemon juice to thin to a creamy consistency.

Golden salad dressing is good with fruit salads. Beat two eggs slightly, add a quarter cup of fruit juice—orange or pineapple—a quarter cup of lemon juice and a quarter cup of sugar. Stir over hot water in a double boiler until it begins to thicken, cool and use for fruit salads.

This is a good boiled salad dressing: Beat the yolks of two eggs until creamy. Mix with a teaspoon of mustard, the same of salt, three tablespoons of sugar, two tablespoons of cream and one of butter. Over this pour two-thirds of a cup of hot vinegar and cook over hot water, stirring constantly, until thick and smooth. Cool and use with vegetable salads.

Horse radish sauce is made by mixing in a bowl a teaspoon of salt and a little pepper. Break on this mixture the yolks of two eggs and beat with an egg-beater. Add olive oil until a thick sauce results and then add a tablespoon of grated horse radish.

This is a good and easily made dressing to serve with celery or lettuce salad: Mix four tablespoons of olive oil with the juice of two small lemons, the chopped yolk of a hard-boiled egg, salt and pepper, and a teaspoonful of chopped chervil.

Dorothy Dexter.

## ONE VICTIM EVERY HOUR

Paralysis Scourge Holds Up to Average in New York

### HIGH MORTALITY STRIKING FEATURE

702 Cases Thus Far and the Deaths Number Nearly 140

New York, July 6.—The average of one death an hour was maintained yesterday by the infantile paralysis epidemic, twelve children dying of the disease between 10 o'clock Tuesday night and 10 o'clock yesterday morning in the five boroughs of New York City. During a period of forty-eight hours there were 178 new cases reported. Of this number 157 were in or near the seat of the epidemic in Brooklyn.

In one Brooklyn hospital yesterday there were 225 children victims of the disease, many of whom it was said, had slight chances of recovery.

Health Commissioner Emerson was in conference with his assistants and a corps of medical experts all the morning and at noon it was announced that the meeting was to be resumed yesterday afternoon. It is understood that drastic measures to rid the city of the plague are under consideration. Commissioner Emerson said yesterday that he would see Mayor Mitchell later in the day and discuss the question of a municipal loan to help fight the scourge.

The offices of the health department were besieged all day by a crowd of men, women and children, mostly foreigners, who, terrified by reports of the spread of the disease, demanded medical advice. It was necessary to summon extra policemen to preserve order and at one time those waiting for an audience with the doctors formed a line which extended for nearly a block.

Since June 26, when the epidemic took hold, 700 cases have been reported. Of these, 138 died.

Physicians fighting the disease were of the belief yesterday that cooler weather, which followed a shower, would do more than anything else in routing the plague. Major General Leonard Wood yesterday ordered what is virtually a quarantine of Governor's Island, because of the epidemic. By the commander's orders no children are to be permitted to visit the island and the soldiers there will not be permitted to visit their families until further notice.

## CHINESE TROOPS DRIVING TOWARD CANTON PROVINCE

Government Military Commander Determined to End Rule of Governor Kuang.

Shanghai, July 6.—General Li Lieh-Chun is fighting his way along the railway from Shuochow toward Canton, determined to enforce the demand of the residents of Canton that the rule of Governor Lung Chi Kuang of Kwang-Tung province shall be ended. He came in contact with the governor's forces at Yingtak, where a battle was fought on July 3. Li Lieh-Chun's troops, marching eastward from Kwang-Si province, took Samshui on July 2.

Yingtak is about half way from Shuochow to Canton. Samshui is about thirty miles west of Canton.

### A KNOTTY PROBLEM.

Britain Faces One in Controversies with Neutral Powers.

London, July 6.—The controversy between the British government and the neutral countries from whose ships Germany have been removed has come to a standstill over the question whether reservists are to be considered as incorporated in the armed forces of a hostile power.

When the case of the removal of Teutonic subjects from the steamship China was decided in favor of the United States, diplomatic representatives of other neutral nations began to press for the release of subjects of the central powers taken from various ships bound for European ports, while the Washington government continued to press for the release of Germans interned here and in the Orient who had been seized from American vessels.

In the China controversy Great Britain admitted the principle that she had no right to seize such subjects of hostile powers from neutral ships unless they were incorporated in the armed forces of the belligerents.

### HUGHES BACK IN NEW YORK.

Returns to Consult Chairman Wilcox—Other Political Conferences.

New York, July 6.—Charles E. Hughes returned to his headquarters here from Bridgehampton yesterday to renew conferences with political leaders and to consult especially William R. Wilcox, national chairman, on the conduct of the campaign. He expects to remain here until this afternoon.

The Republican candidate had an engagement to lunch yesterday with Dr. Jacob Gould Schurman, president of Cornell university, and to meet yesterday afternoon Owen Johnson, the novelist. Mr. Johnson is sailing in a few days for France, and discussed with the Republican candidate national issues in America in which he believed the French would be interested.

Mr. Hughes also had an engagement yesterday to meet Frank A. Munsey and with John Wanamaker of Philadelphia to-day.

### McCall to Run Again.

Boston, July 6.—Governor McCall's candidacy for a second term was indicated yesterday when papers for his nomination as the Republican candidate were taken out at the office of the secretary of state. The papers were obtained by Charles S. Baxter, who was manager of the governor's last campaign.

## 21,071,076 MIGHT BE CALLED TO ARMS IN UNITED STATES

Census Bureau Estimates There Are as Many as That Between the Ages of 18 and 45—New York Leads All the States.

How many able-bodied citizens of military age have we in the United States? The bureau of the census, while it is unable to make any estimate of the proportion who are able-bodied, estimates that the total number of male citizens and prospective citizens—that is, foreign-born persons who have declared their intention to become citizens—18 to 45 years of age, inclusive, is not far from 21,000,000.

This estimate is based on the assumption that there has been an increase of approximately 10 per cent. in the population of the country since the census of 1910. When that census was taken, the total number of male citizens and prospective citizens 18 years of age and over, but under 46, was 19,183,000. Of this number, 14,224,000 were native whites, 2,857,000 were foreign-born whites who had become naturalized or had declared their intention of doing so, 2,052,000 were negroes, and 59,000 were Indians. The number of foreign-born citizens is partially an estimate, since the census enumerators were able to obtain information as to citizenship from only about seven-eighths of the total number of foreign-born males. Native whites thus represent about 74 per cent. of the total, foreign-born whites nearly 15 per cent., negroes nearly 11 per cent., and Indians about three-tenths of 1 per cent.

During the Civil war, when the population of the country, exclusive of the seceding states, was less than one-fourth as great as the present population of the entire United States, the total number of men serving in the federal armies at one time and another was approximately 2,500,000 (due allowance being made for duplicate enlistments, that is, cases in which men enlisted more than once).

The following table gives, by states, the total number of males 18 to 45 years of age enumerated at the census of 1910. The figures in this table include approximately 1,706,000 alien whites and 92,000 Chinese, Japanese, and others, together representing about 9 per cent. of the total, who would be ineligible for military service. The census bureau has not compiled the numbers of these classes of the population, within the given age limits, who were living in each state in 1910. Taking the country as a whole, however, the probable increase in population between 1910 and 1916 will approximately counterbalance the number of alien whites, Chinese, Japanese, etc., included in the figures for 1910, so that these figures may be accepted as roughly representative of the number of male citizens and prospective citizens 18 to 45 years of age, inclusive, in each state and in the United States in 1916.

Total Number of Males 18 to 45 Years of Age, Inclusive: 1910.

### PRESIDENT GOING TO DETROIT.

He Will Address the World's Salesmanship Congress Monday.

Washington, July 6.—President Wilson promised Representative Doremus yesterday he would address the World's Salesmanship Congress in Detroit, Monday. He will leave Washington Sunday and reach Detroit Monday morning, attend a reception and start back to Washington a few hours later.

### DO YOU KNOW THAT

Better wages make better health?

Better health makes better citizens?

Better citizens make a better nation?

The U. S. public health service found 78 per cent of the rural homes in a certain county unprovided with sanitary conveniences of any kind?

Cholera is spread in the same manner as typhoid fever?

Scarlet fever kills over 10,000 Americans each year?

Hook worm enters through the skin?

He who builds up health lays up treasure in the bank of nature?

## Cuticura Stops Itching Instantly

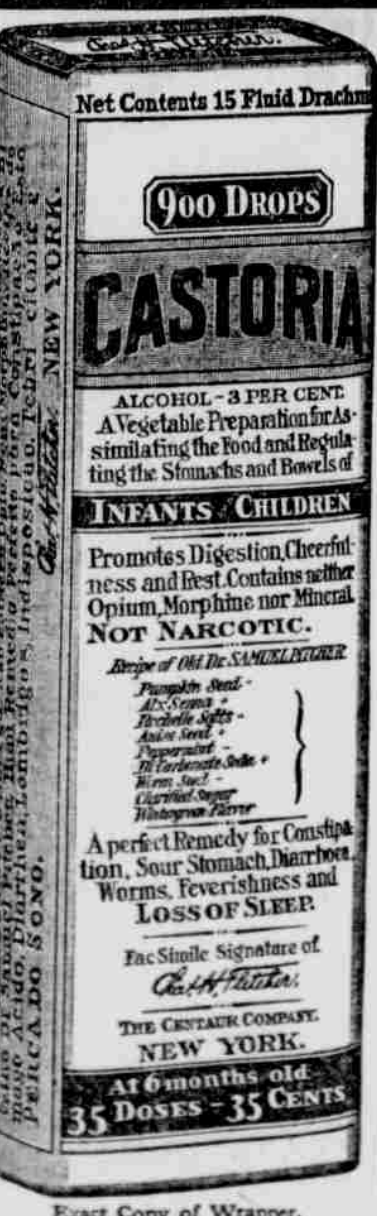

**Trial Free.**  
Just Bathe with the Cuticura Soap, dry and apply the Cuticura Ointment

## For Eczemas, Rashes,

Itchings, irritations, pimples, dandruff, sore hands and baby humors, Cuticura Soap and Ointment are supremely effective. Relief is immediate and healment, in most cases, is complete, speedy and permanent.

**Sample Each Free by Mail**  
With 32-p. Skin Book on request. Address post-card "Cuticura, Dept. 16, Boston." Sold throughout the world.
